
CRK Series Fluorescent Pigments

CRK Series are formaldehyde free fluorescent pigments for plastics of low temperature processing, low plate-out and cost effectively. HK Series is easily melt in the coloring of various plastics with excellent performance in pigmentation, equality, brightness and vividness.

Applications:

- Extrusions, injection moldings, blow moldings
- Masterbatch
- Fiber forming

Available Colors:

CRK-11	Pink	CRK-16	Orange yellow
CRK-12	Cerise	CRK-17	Yellow
CRK-13	Red	CRK-18	Green
CRK-14	Red orange	CRK-20	Violet
CRK-15	Orange	CRK-21	Magent

Technical Properties:

Average Particle Size	≤100μm	
Softening Point	> 80℃	
Application Temperature	135-220℃	
Full shade(compared with the standard)	similar	
Color strength(compared with the standard)	100±5%
